Description

The Ruko-102429 180° HSS Flat Countersink is a high-precision tool designed for countersinking hexagonal and cylindrical head screws. With a 180° countersinking angle and three cutting edges, this countersink allows for right-hand cutting, guaranteeing a clean and professional finish every time. Its design is ideal for working with materials such as steel, cast iron, light metals, and non-ferrous metals, making it a versatile choice for various industrial and DIY applications.

The tapered handle provides a comfortable and secure grip, allowing for optimal control during the countersinking process. This product is designed for straight holes with standard pitch, ensuring compatibility with a wide range of screws and bolts.

Furthermore, it comes in a translucent plastic case with a hanger, making it easy to store and transport.
