

Product sheet

RUKO HSS solid drill bit with Weldon shank Ø 10 mm, high precision and durability.

Brand: Ruko

Reference: TUR 1081210

Solid 3S HSS drill bit with Weldon shank (Ø 10 mm) for pillar and floor drills. 30 mm drilling depth, CBN ground with three cutting edges. Ideal for drilling steel, light metals, and non-ferrous metals. Includes plastic case.

[View product online](#)**Description**

The Ruko-1081210 "Solid 3S" HSS Weldon Shank Drill Bit (Ø 10 mm) is a high-precision tool designed to deliver exceptional performance in drilling applications. With a drilling depth of 30 mm and a CBN grind providing three cutting edges, this drill bit is ideal for use in magnetic base pillar drills and bench drills with a Morse taper connection, using adapters 108 302 or 108 303. Its direct connection to RUKO RS 10 type drills ensures optimal compatibility and efficient operation.

The "Solid 3S" stands out for its ability to advantageously replace hollow drill bits in small-diameter holes, making it a versatile option for various applications. It is particularly suitable for drilling steel beams and plates, cast steel, as well as light and non-ferrous metals.

Furthermore, it comes in a translucent plastic case with a hanger, facilitating its storage and transport.

- Diameter: Ø 10 mm
- Drilling depth: 30 mm
- Material: HSS (High-speed steel)
- Grinding: CBN with 3 cutting edges
- Compatibility: Magnetic base pillar drills and bench drills
- Connection: Weldon shank
- Required adapters: 108 302/108 303
- Recommended use: Steel beams and sheets, cast steel, light and non-ferrous metals
- Case: Translucent plastic with hanger

Specifications

High	3,00
Width	3,00
EAN	4007140113429
Manufacturer	Ruko
Weight (kg)	0,0600
Depth	9,00
