

Product sheet

RUKO carbide core drill bit Ø 20.4 mm for precise drilling.

Brand: Ruko

Reference: TUR 105204

The Ruko-105204 carbide hole saw (Ø 20.4 mm) allows for precise cuts in stainless steel and light metals. With a maximum cutting depth of 10 mm, it includes an HSS Co5 pilot drill bit. Packaged in a multi-colored cardboard box.

Description

The Ruko-105204 hole saw is designed to deliver precise and efficient cutting in a variety of materials. With a 20.4 mm diameter and a maximum cutting depth of 10 mm, this tool is ideal for applications requiring a high-quality surface finish. Its carbide teeth ensure exceptional durability and superior performance, allowing for straight cuts with ease. The integrated HSS Co5 DIN 1412 C pilot drill ensures precise guidance during the drilling process, minimizing the risk of slippage and improving cutting accuracy.

The hole saw and shank are machined from a single piece, providing greater stability and strength during use.

This product is especially recommended for working with stainless steel, high-alloy steels such as V2A and V4A (up to 2 mm thick), as well as steel, cast steel, light and non-ferrous metals, plastics, light boards, and wood.

- **Diameter:** 20.4 mm
- **Maximum cutting depth:** 10 mm
- **Tooth material:** Carbide
- **Cutting type:** Right-hand
- **Pilot drill bit:** HSS Co5 DIN 1412 C
- **Construction:** One-piece crown and shank
- **Recommended materials:** Stainless steel, high-alloy steels, steel, cast steel, light and non-ferrous metals, plastics, light boards, and wood
- **Presentation:** Multicolored cardboard box suitable for hanging on a euro hook

Specifications

High	5,00
Width	6,00
EAN	4007140041951
Manufacturer	Ruko
Material	Metal
Weight (kg)	0,1200
Depth	8,00
