Product sheet

RUKO carbide core drill bit Ø 28 mm for precise drilling.

Brand: Ruko

Reference: TUR 105028

The Ruko-105028 carbide core drill (Ø 28 mm) allows for precise cuts in stainless steel, light metals, and plastics. With a maximum cutting depth of 10 mm, it includes an HSS Co5 pilot drill bit and features a one-piece design.

Description

The Ruko-105028 hole saw is designed to deliver precise and efficient cutting in a variety of materials. With a 28 mm diameter and a maximum cutting depth of 10 mm, this tool is ideal for applications requiring a high-quality surface finish. Made with carbide teeth, it ensures durability and strength, allowing for easy straight cuts. The integrated HSS Co5 DIN 1412 C pilot drill bit provides stable guidance during the drilling process. Its one-piece crown and shank construction minimizes the risk of breakage and improves power transfer.

The Ruko-105028 is especially recommended for working with stainless steel, high-alloy steels such as V2A and V4A (up to 2 mm thick), as well as steel, cast steel, light and non-ferrous metals, plastics, lightweight boards, and wood.

Its presentation in a multicolored cardboard box, suitable for hanging on a Euro hook, facilitates its storage and display.

- Diameter: 28 mm
- Maximum cutting depth: 10 mm
- Carbide teeth
- Right-hand cutting
- HSS Co5 DIN 1412 C pilot drill bit
- One-piece crown and shank
- Recommended for stainless steel and high-alloy steels
- Compatible with light and non-ferrous metals
- Presented in a multicolored cardboard box

- Suitable for hanging on a Euro hook

Specifications

High	5,00
Width	6,00
EAN	4007140005991
Manufacturer	Ruko
Material	Metal
Weight (kg)	0,1400
Depth	8,00
