Description

The Ruko-105075 Carbide Hole Saw (Ø 75 mm) is a high-precision tool designed for shallow cuts with a maximum depth of 10 mm. Its robust construction, with carbide teeth, ensures exceptional performance in a variety of materials, including stainless steel and high-alloy steels such as V2A and V4A, up to a thickness of 2 mm. This hole saw is ideal for applications in steel, cast steel, light and non-ferrous metals, as well as plastics, lightweight boards, and wood.

The Ruko-105075 features a right-hand cutting design and includes an HSS Co5 DIN 1412 C pilot drill bit, facilitating accurate starting. The hole saw and shank are machined from a single piece, providing increased durability and stability during use.

Its presentation in a multicolored cardboard box is suitable for hanging on a Euro hook, making it a practical option for storage and display.
