The Ruko-105150 Carbide Hole Saw (Ø 150 mm) is a high-precision tool designed for shallow cuts in a wide variety of materials. With a maximum cutting depth of 10 mm, this hole saw is equipped with carbide teeth that ensure long-lasting and efficient performance. Its right-hand cutting design, along with an HSS Co5 DIN 1412 C pilot drill bit, allows for easy and precise drilling. The hole saw and shank are made from a single piece, providing greater stability and reducing the risk of breakage during use.

This tool is especially recommended for working with stainless steel, high-alloy steels such as V2A and V4A (up to 2 mm thick), as well as steel and cast steel, light and non-ferrous metals, plastics, lightweight boards, and wood.

Its versatility makes it an ideal choice for professionals and DIY enthusiasts seeking quality and precision in their projects.
