The Ruko-113015 MHS TC multigrade hole saw is a high-precision tool designed for drilling in a wide variety of materials. With a 15 mm diameter and a cutting depth of up to 28 mm, this hole saw is ideal for working with stainless steel, high-alloy steels such as V2A and V4A, as well as steel and cast steel up to 20 mm. It is also suitable for non-ferrous metals and plastics, allowing for clean and efficient cuts.

The Ruko-113015 features carbide teeth that ensure exceptional durability and optimal performance under demanding conditions. Its right-hand cutting design facilitates handling and drilling accuracy.

The triangular shank provides a secure and stable grip during use, contributing to the quality of the finished work.
