The Ruko-113020 MHS TC multi-grade hole saw is a high-precision tool designed for drilling in a wide variety of materials. With a 20 mm diameter and a cutting depth of up to 28 mm, this hole saw is ideal for working with stainless steel, high-alloy steels such as V2A and V4A, as well as steel and cast steel up to 20 mm. It is also effective on non-ferrous metals and plastics, allowing for clean and efficient cuts.

The Ruko-113020 features carbide teeth that ensure exceptional durability and superior performance under demanding conditions. Its right-hand cutting design facilitates operation, while the triangular shank ensures a firm and stable grip during use.

MHS hole saws are offered in different configurations, adapting to various drilling needs.
