Description

The Ruko-113026 Multigrade TC MHS Hole Saw (Ø 26 mm) is a high-precision tool designed for drilling in a wide variety of materials. With a cutting depth of up to 28 mm and carbide teeth, this hole saw is ideal for working with stainless steel, high-alloy steels such as V2A and V4A, as well as steel and cast steel up to 20 mm. It is also suitable for non-ferrous metals and plastics, allowing for clean and efficient cutting.

The right-hand cutting design and triangular shank ensure a secure grip and optimal performance during use.

MHS hole saws are offered in different configurations, ensuring they meet the specific needs of each project.

- Cutting depth: 28 mm
- Carbide teeth for durability
- Adjustable cutting depth from 2 to 28 mm
- Right-hand cutting for efficient performance
- Recommended for stainless steel and high-alloy steels
- Compatible with steel and cast steel up to 20 mm
- Capable of drilling non-ferrous metals and plastics up to 28 mm
- Triangular shank for secure holding
- Includes pilot drill and hex key (Ø 15.0 mm to 30.0 mm)
- Translucent plastic case with hanger for storage

From 65.0 mm onwards, it is recommended The use of an MK2 Morse taper shank (item 113 203) for

improved performance.

Specifications

High	4,00
Width	4,00
EAN	4007140085634
Manufacturer	Ruko
Weight (kg)	0,1900
Depth	12,00
