Description

The Ruko-113027 MHS TC multi-grade hole saw is a high-precision tool designed for efficient cutting in a wide variety of materials. With a 27 mm diameter and a cutting depth of up to 28 mm, this hole saw is ideal for working with stainless steel, high-alloy steels such as V2A and V4A, as well as steel and cast steel up to 20 mm thick. It is also suitable for non-ferrous metals and plastics up to 28 mm, making it a versatile option for professionals in the industry.

The Ruko-113027 features carbide teeth that ensure a straight cut, offering durability and precision with every hole.

Its triangular shank provides a secure and stable fit during use, minimizing the risk of slippage.
