Description

The Ruko-113028 Multi-Grade TC MHS Hole Saw (Ø 28 mm) is a high-precision tool designed for drilling in a wide variety of materials. With a cutting depth of up to 28 mm and carbide teeth, this hole saw is ideal for working with stainless steel, high-alloy steels such as V2A and V4A, as well as steel and cast steel up to 20 mm. It is also suitable for non-ferrous metals and plastics, allowing for efficient and clean cutting.

The right-hand cutting design ensures optimal performance, while its triangular shank provides a secure and stable grip during use.

MHS hole saws are offered in different configurations to suit various needs:

- From Ø 15.0 mm to 30.0 mm: one-piece hole saw and shank, includes pilot drill bit and hex key.
- From Ø 31.0 to 100.0 mm: shankless hole saw, with M18 x 6 P 1.5 thread adapter.
- From 65.0 mm: the use of Morse taper MK2 shank (item 113 203) is recommended.

The tool comes in a translucent plastic case with a hanger, facilitating storage and transport. The Ruko-113028 is a reliable choice for professionals seeking quality and durability in their drilling.

Specifications

High	4,00
Width	4,00

EAN	4007140085658
Manufacturer	Ruko
Weight (kg)	0,2000
Depth	12,00
