Description

The Ruko-113029 MHS TC Multigrade Hole Saw is a high-precision tool designed for drilling in a wide variety of materials. With a 29 mm diameter and a cutting depth of up to 28 mm, this hole saw is ideal for working with stainless steel, high-alloy steels such as V2A and V4A, as well as steel and cast steel up to 20 mm. It is also suitable for non-ferrous metals and plastics, allowing for clean and efficient cutting.

The hole saw is equipped with carbide teeth that ensure exceptional durability and optimal performance under demanding conditions. Its right-hand cutting design facilitates operation, while the triangular shank provides a secure and stable grip during use.

MHS hole saws are offered in different configurations to suit various needs:

- From Ø 15.0 mm to 30.0 mm: one-piece hole saw and shank, includes pilot drill and hex key.
- From Ø 31.0 mm to 100.0 mm: hole saw without shank, with M18 x 6 P 1.5 thread adapter.
- From 65.0 mm: the use of Morse taper MK2 shank (item 113 203) is recommended.

The product comes in a translucent plastic case with a hanger, facilitating storage and transport.

Specifications

High	4,00
Width	4,00
EAN	4007140085665

Manufacturer	Ruko
Weight (kg)	0,2100
Depth	12,00
