Description

The Ruko-113030 Multigrade TC MHS Hole Saw (Ø 30 mm) is a high-precision tool designed for drilling in a wide variety of materials. With a cutting depth of up to 28 mm and carbide teeth, this hole saw is ideal for working with stainless steel, high-alloy steels such as V2A and V4A, as well as steel and cast steel up to 20 mm. It is also suitable for non-ferrous metals and plastics, allowing for clean and efficient cuts up to 28 mm deep.

The triangular shank design ensures a firm and secure grip during use.

MHS core drills are offered in different configurations, ensuring versatility in their application:

- From Ø 15.0 mm to 30.0 mm: one-piece core and shank, includes pilot drill and hex key.
- From Ø 31.0 to 100.0 mm: core without shank, with M18 x 6 P 1.5 thread adapter.
- From Ø 65.0 mm: the use of Morse taper MK2 shank (item 113 203) is recommended.

The tool comes in a translucent plastic case with a hanger, facilitating storage and transport. The Ruko-113030 is a reliable choice for professionals who require precision and durability in their drilling work.

Specifications

High	5,00
Width	5,00

EAN	4007140085672
Manufacturer	Ruko
Weight (kg)	0,2300
Depth	12,00
