

Product sheet

RUKO TC multi-grade core drill bit Ø 35 mm, ideal for multiple materials.

Brand: Ruko

Reference: TUR 113035

The TC multigrade MHS hole saw (Ø 35 mm) is ideal for stainless steel and non-ferrous metals. With carbide teeth and a cutting depth of 2 to 28 mm, it includes a translucent plastic storage case.

[View product online](#)**Description**

The Ruko-113035 MHS TC Multigrade Hole Saw (Ø 35 mm) is a high-precision tool designed for drilling in a wide variety of materials. With a cutting depth of up to 28 mm and carbide teeth, this hole saw is ideal for working with stainless steel, high-alloy steels such as V2A and V4A, as well as steel and cast steel up to 20 mm. It is also suitable for non-ferrous metals and plastics, allowing for clean and efficient cuts up to 28 mm deep.

The right-hand cutting design ensures optimal performance, while its triangular shank provides a secure and stable grip during use.

MHS hole saws are offered in different configurations to suit various needs:

- From Ø 15.0 mm to 30.0 mm: one-piece hole saw and shank, includes pilot drill and hex key.
- From Ø 31.0 to 100.0 mm: hole saw without shank, with M18 x 6 P 1.5 thread adapter.
- From Ø 65.0 mm: the use of Morse taper MK2 shank (item 113 203) is recommended.

The tool comes in a translucent plastic case with a hanger, facilitating storage and transport.

Specifications

High	5,00
Width	5,00
EAN	4007140085726

Manufacturer	Ruko
Weight (kg)	0,2700
Depth	12,00
