Description

The Ruko-113038 MHS TC Multigrade Hole Saw is a high-precision tool designed for drilling in a wide variety of materials. With a 38 mm diameter and a cutting depth of up to 28 mm, this hole saw is ideal for working with stainless steel, high-alloy steels such as V2A and V4A, as well as steel and cast steel up to 20 mm thick. It is also effective on non-ferrous metals and plastics up to 28 mm thick.

Its design features carbide teeth that ensure efficient and long-lasting cutting, allowing for straight cuts. The triangular shank provides a secure and stable grip during use, improving accuracy with every hole.

MHS core drills are offered in different configurations to suit various drilling needs.

- Cutting depth: 2 to 28 mm
- Diameter: Ø 38 mm
- Carbide teeth
- Recommended for stainless steel and high-alloy steels
- Drilling capacity in steel and cast steel up to 20 mm
- Drilling capacity in non-ferrous metals and plastics up to 28 mm
- Triangular shank for greater stability
- Translucent plastic case with hanger included
- M18 x 6 P 1.5 thread adapter for cores from Ø 31.0 to 100.0 mm
- Recommended use of MK2 Morse taper shank from 65.0 mm

Specifications

High	5,00
Width	5,00
EAN	4007140085757
Manufacturer	Ruko
Weight (kg)	0,3000
Depth	12,00
