Description

The Ruko-113041 MHS TC Multigrade Hole Saw is a high-precision tool designed for efficient cutting in a variety of materials. With a 41 mm diameter and a cutting depth of up to 28 mm, this hole saw is ideal for working with stainless steel, high-alloy steels such as V2A and V4A, as well as steel and cast steel up to 20 mm. It is also suitable for non-ferrous metals and plastics up to 28 mm, making it a versatile option for professionals in the field.

The Ruko-113041 features carbide teeth that ensure a straight cut, offering durability and precision with every hole. Its design includes a triangular shank, which facilitates its use and compatibility with various tools.

MHS hole saws are supplied in different configurations, ensuring they meet the specific needs of each project.

- Diameter: Ø 41 mm
- Cutting depth: 2 to 28 mm
- Carbide teeth
- Right-hand cutting
- Recommended for stainless steel and high-alloy steels
- Suitable for steel and cast steel up to 20 mm
- Compatible with non-ferrous metals and plastics up to 28 mm
- Triangular shank
- Translucent plastic case with hanger
- M18 x 6 P 1.5 threaded adapter for hole saws from Ø 31.0 to 100.0 mm

Specifications

High	5,00
Width	5,00
EAN	4007140085788
Manufacturer	Ruko
Weight (kg)	0,3200
Depth	12,00
