

Product sheet

**RUKO 50mm HSS-CO core drill bit with fine teeth and durable bimetal.**

Brand: Ruko

Reference: TUR 126050

The Ruko-126050 HSS-Co 8 bi-metal 50mm core drill bit features fine teeth and a cutting depth of 38mm. Ideal for alloy steels, stainless steels, and non-ferrous metals. Coolant use is recommended.

[View product online](#)**Description**

The Ruko-126050 core drill is designed to deliver exceptional performance when cutting demanding materials. With a 50 mm diameter and a maximum cutting depth of 38 mm, this tool is ideal for working with alloy and non-alloy steels up to 1,000 N/mm², as well as stainless steels and non-ferrous metals. Its HSS Co 8 construction, along with a special steel body and fine teeth, ensures precise and durable cuts, even under challenging conditions.

The right-hand cutting design allows for greater efficiency in the drilling process, while the use of coolant is essential to maintain the correct temperature and extend the tool's lifespan.

The hole saw is supplied without a support shank and comes in a multi-colored cardboard box, suitable for hanging on a Euro hook, facilitating its storage and display.

- Diameter: 50 mm
- Cutting depth: 38 mm
- Material: HSS Co 8
- Special steel body
- Fine teeth for precise cuts
- Right-hand cutting
- Compatible with alloy and non-alloy steels up to 1,000 N/mm²
- Ideal for stainless steels and non-ferrous metals
- Recommended use with coolant
- Includes RPM chart in the box

Specifications

High	5,00
Width	6,00
EAN	4007140137531
Manufacturer	Ruko
Weight (kg)	0,1300
Depth	8,00
