Description

The Ruko-217050 centering drill bit is specifically designed for creating center holes according to DIN 332, Form A. Made of high-speed steel (HSS), this tool guarantees optimal performance and a long service life. Its 60° centering angle and 120° rake angle allow for efficient penetration into various materials, ensuring accuracy and quality with every hole. With an h9 tolerance, this drill bit offers a perfect fit in applications requiring high precision. The right-hand cutting edge facilitates smooth and controlled progress, minimizing the risk of slippage or deviation during use.

- **Model:** Ruko-217050
- **Type:** DIN 333 A Double Centering Drill Bit
- **Material:** High-Speed Steel (HSS)
- **Diameter:** Ø 5.00 mm
- **Centering Angle:** 60°
- **Rake Angle:** 120°
- **Tolerance:** h9
- **Cutting:** Right-hand
- **Applications:** Centering holes in various materials
- **Standards:** Complies with DIN 332, form A

Specifications

High	3,00
Width	3,00
EAN	4007140022530
Manufacturer	Ruko
Weight (kg)	0,0400

Depth	6,50
