Description

The Ruko-2155010 drill bit is designed to deliver exceptional performance in high-precision drilling applications. Made from high-speed steel with 5% cobalt, this ground drill bit ensures superior durability and wear resistance, making it an ideal tool for working with hard and demanding materials. Its self-centering design allows for more precise drilling and prevents slippage when starting the hole, ensuring optimal results every time. With a diameter of 1 mm, it is perfect for tasks requiring high precision and control.
