Description

The Ruko-2155020 drill bit is designed to deliver superior performance in high-precision drilling applications. Made from high-speed steel (HSS) with 5% cobalt, this ground drill bit ensures exceptional durability and wear resistance, making it the ideal choice for working with hard and demanding materials. Its self-centering design allows for more accurate drilling and prevents slippage when starting the hole, ensuring optimal results every time. With a diameter of 2 mm, it is perfect for tasks requiring high accuracy and a clean finish.
