

Product sheet

RUKO 12mm HSS-CO drill bit with self-centering and cobalt for high precision.

Brand: Ruko

Reference: TUR 2155120

The HSS-Co 5 Cobalt self-centering ground drill bit (Ø 12 mm) is designed for precision and durability in drilling. Its cobalt construction ensures superior performance in hard materials, ideal for demanding work in a variety of applications.

Description

The Ruko-2155120 drill bit is designed to deliver superior performance in demanding drilling applications. Made from high-speed steel with 5% cobalt, this ground drill bit ensures greater durability and wear resistance, making it an ideal tool for working with hard materials and alloys. Its self-centering design allows for precise and efficient drilling, minimizing slippage and ensuring an accurate start. With a diameter of 12 mm, this drill bit is perfect for a variety of industrial and DIY projects, providing high-quality results every time.

- **Material:** HSS-Co5 high-speed steel with 5% cobalt
- **Diameter:** 12 mm
- **Type:** Ground drill bit
- **Function:** Self-centering for precise drilling
- **Applications:** Ideal for hard materials and alloys
- **Durability:** High wear resistance
- **Use:** Industrial and DIY projects
- **Finish:** Polished surface for better performance
- **Compatibility:** Compatible with standard drills
- **Origin:** High quality manufacturing

Specifications

High	4,00
Width	4,00
EAN	4007140057297
Manufacturer	Ruko
Weight (kg)	0,4500

Depth	15,50
