

Product sheet

RUKO HSS complete milling cutter for welding points, 72 mm long.

Brand: Ruko

Reference: TUR 101101

Ruko-101101 HSS spot welding cutter, 72 mm long. Designed for removing welded sheet metal parts, it features cutting edges on both sides and adjustable depth. It ensures efficient work without deformation of the sheet metal.

Description

The Ruko-101101 spot welding cutter is specifically designed to facilitate the removal of sheet metal parts joined by spot welding. Made of high-speed steel (HSS), this tool features an efficient design that allows for precise and fast cutting, thanks to its double-sided cutting capability. Its 72 mm length provides a suitable reach for various applications in metalworking and vehicle repair.

The cutter has a replacement system that ensures a long service life and consistent performance. Furthermore, the milling depth can be easily adjusted with a screw, allowing it to adapt to different sheet thicknesses without risk of deformation.

This feature is fundamental to maintaining the integrity of the workpieces, guaranteeing optimal results with every use.

- **Material:** High-speed steel (HSS)
- **Length:** 72 mm
- **Cutting:** Double-sided cutting edge
- **Replaceable:** Yes
- **Depth adjustment:** By screw
- **Deformation prevention:** Yes
- **Applications:** Dismantling of spot-welded sheets
- **Use:** Efficient and fast
- **Compatibility:** Ideal for metalworking and vehicle repair

Specifications

High	1,50
Width	1,50
EAN	4007140001962
Manufacturer	Ruko
Weight (kg)	0,0200
Depth	10,00
