

Product sheet

**RUKO soldering bit Ø 8 mm,
ideal for precise soldering
points.**

Brand: Ruko

Reference: TUR 101080TC

Ruko-101080TC spot welding bit, with a diameter of 8 mm. Designed for connection to pneumatic machines, it offers high precision in its operation, ideal for applications that require a high level of detail and accuracy in welding.

[View product online](#)**Description**

The Ruko-101080TC is a bit specifically designed for spot welding, with a diameter of 8 mm. This accessory easily connects to pneumatic welding machines, ensuring optimal performance in welding applications. Its precise design allows for accurate placement on the weld points, resulting in a clean and professional finish. The quality of its manufacture ensures a long service life, even under demanding working conditions. This bit is ideal for professionals seeking efficiency and precision in their welding projects.

- **Diameter:** 8 mm
- **Connection:** Compatible with pneumatic machines
- **Precision:** High precision in spot welding placement
- **Material:** Made with high-quality materials
- **Durability:** Wear-resistant for extended use
- **Applications:** Ideal for welding work in various industries
- **Ease of use:** Simple installation on pneumatic equipment
- **Performance:** Improves efficiency in welding processes
- **Compatibility:** Suitable for different models of pneumatic machines
- **Design:** Compact and lightweight for comfortable handling

Specifications

High	2,50
Width	2,50
EAN	4007140127051
Manufacturer	Ruko
Weight (kg)	0,0300

Depth	8,50
