Description

The Ruko-101202 milling cutter is a high-precision tool designed to meet the needs of professionals and hobbyists working with various materials. With a diameter of 8 mm and a cutting angle of 118°, this cutter is ideal for drilling and milling contours in wood, sheet metal, plastics, and thin-walled materials. Its ergonomic design and high-quality manufacturing guarantee optimal performance and a long service life, allowing for clean and precise cuts in a wide variety of applications.

- **Diameter:** 8 mm
- **Cutting Angle:** 118º
- **Compatible Materials:** Wood, sheet metal, plastics, thin-walled materials
- **Use:** Drilling and milling contours
- **Design:** Optimized ergonomics for comfortable handling
- **Durability:** High-quality manufacturing for a long service life
- **Precision:** Clean and accurate cuts in various applications
- **Compatibility:** Suitable for use in drills and milling machines
- **Applications:** Ideal for working with carpentry, metalworking and DIY
- **Presentation:** Individual product

Specifications

High	1,50
Width	1,50
EAN	4007140041470
Manufacturer	Ruko
Weight (kg)	0,0300
Depth	11,50
