

Product sheet

RUKO semi-spherical carbide end mills Ø 16 mm for precision cutting.

Brand: Ruko

Reference: TUR 116024

Semi-spherical carbide end mills (Ø 16 mm) with fine KZ4 cross-cut teeth. Designed for deburring, surface finishing, and weld bead removal on various materials. Packaged in individual plastic cases with hangers for easy storage.

Description

The Ruko-116024 C-WRC Semi-Spherical Carbide End Mill (Ø 16 mm) is a high-precision tool designed to meet the needs of professionals in the machining and manufacturing fields. Featuring a fine KZ4 cross-cut design, this end mill offers high cutting power and remarkable toughness, making it an ideal choice for various industrial applications.

The cross-cut design provides greater cutting capacity compared to single-cut designs, enabling efficient deburring, surface and angle finishing, and weld bead removal.

This tool is compatible with a wide range of materials, including high-alloy steels, corrosion-resistant steels, plastics, and castings.

- **Diameter:** 16 mm
- **Tooth type:** KZ4 - fine
- **Surface:** Bright
- **Applications:** Deburring, chamfering, surface and angle fitting
- **Compatible materials:** High-alloy steels, corrosion-resistant steels, plastics, and castings
- **Shank:** Carbide
- **Packaging:** Individual plastic box with hanger
- **Use:** Industrial and professional
- **Durability:** High toughness
- **Type of Milling cutter:** Hemispherical

The Ruko-116024 is an essential tool for those seeking precision and efficiency in their machining work.

Specifications

High	2,00
Width	2,50
EAN	4007140090751
Manufacturer	Ruko
Material	Metal
Weight (kg)	0,0600
Depth	13,00
