Description

The Ruko-235160 tap set is designed for creating through and blind hole threads in a variety of materials, including unalloyed and low-alloy steels with a tensile strength of up to 800 N/mm², as well as malleable cast iron and non-ferrous metals. This set allows for an efficient threading process, as the thread is tapped in two steps: roughing and finishing, guaranteeing a precise and high-quality finish.
