Description

The Ruko-231030 is a progressive thread tap designed for creating through threads in a variety of materials, including unalloyed and low-alloy steels with a tensile strength of up to 800 N/mm², as well as malleable cast iron and non-ferrous metals. This tap allows for thread cutting in a single step, either manually or using machines, making it a versatile and efficient tool for machining.

- **Thread:** Metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Surface:** Bright
- **Cut:** Right-hand
- **Compatible Materials:** Unalloyed steels, low-alloy steels, malleable cast iron, and non-ferrous metals
- **Application:** Through tapping
- **Use:** Manual or machine
- **Quantity:** 1 piece
- **Packaging:** Individual plastic box with hanger
- **Dimensions:** M3 Thread

The Ruko-231030 is an essential tool for professionals who require precision and durability in their threading projects.

Specifications

High	1,00
Width	1,20
EAN	4007140024251
Manufacturer	Ruko
Weight (kg)	0,0100
Depth	9,40
