Description

The Ruko-231040 is a progressive thread tap designed for creating through threads in a variety of materials, including unalloyed and low-alloy steels with a tensile strength of up to 800 N/mm², as well as malleable cast iron and non-ferrous metals. This tap allows for single-step thread tapping, either manually or using machines, making it a versatile and efficient tool for machining.

- **Thread:** Metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Surface:** Bright
- **Cut:** Right-hand
- **Material:** Ground HSS
- **Applications:** Unalloyed steel, low-alloy steel, malleable cast iron, non-ferrous metals
- **Use:** Single-step tapping, manual or machine
- **Presentation:** 1 piece
- **Packaging:** Individual plastic box with hanger

This tap is an essential tool for professionals seeking precision and durability in their machining projects.

Specifications

High	1,00
Width	1,20
EAN	4007140024268

Manufacturer	Ruko
Weight (kg)	0,0100
Depth	9,40
