Description

The Ruko-231080 is a progressive thread tap designed for creating through threads in a variety of materials, including unalloyed and low-alloy steels with a tensile strength of up to 800 N/mm², as well as malleable cast iron and non-ferrous metals. This tap allows for thread cutting in a single step, either by hand or machine, making it a versatile and efficient tool for machining operations.

- **Thread:** Metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Surface:** Bright
- **Cut:** Right-handed
- **Use:** For through threads
- **Compatible Materials:** Unalloyed steels, low-alloy steels, malleable cast iron, non-ferrous metals
- **Maximum Strength:** 800 N/mm²
- **Presentation:** 1 piece
- **Packaging:** Individual plastic box with hanger
- **Applications:** Ideal for machining and parts manufacturing

The Ruko-231080 is an essential tool for professionals seeking precision and durability in their machining projects.

Specifications

High	1,00
Width	1,20
EAN	4007140024299
Manufacturer	Ruko
Weight (kg)	0,0200
Depth	9,40
