Description

The Ruko-231114NPT-1 1/4" Ground HSS NPT Tap is a high-precision tool designed for creating through threads in a variety of materials. This tap is ideal for use on unalloyed and low-alloy steels with a tensile strength of up to 800 N/mm², as well as malleable cast iron and non-ferrous metals. Its design allows the thread to be tapped in a single step, either by hand or machine, guaranteeing an optimal and efficient finish in the threading process.
