

## Product sheet

## RUKO HSS ground NPT tap with 2" thread - high precision and durability.

Brand: Ruko

Reference: TUR 231020NPT

The Ruko-231020NPT is a ground HSS NPT tap with a #2 thread, ideal for through threads in unalloyed steels and non-ferrous metals. It features a bright surface and comes in an individual plastic case with a hanger.

### Description

The Ruko-231020NPT-Macho NPT HSS ground tap with thread #2 is a high-precision tool designed for creating through threads in a variety of materials. This tap is ideal for use on unalloyed and low-alloy steels with a tensile strength of up to 800 N/mm<sup>2</sup>, as well as malleable cast iron and non-ferrous metals. Its design allows the thread to be tapped in a single step, either by hand or machine, optimizing the machining process and ensuring consistent, high-quality results.

- **Material:** HSS (High-Speed Steel)
- **Application:** Through threads in unalloyed and low-alloy steels
- **Maximum strength:** 800 N/mm<sup>2</sup>
- **Thread type:** Metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Surface:** Bright
- **Cut:** Right-handed
- **Presentation:** 1 piece per unit
- **Packaging:** Individual plastic box with hanger
- **Usage:** Compatible with hand tools and machines

### Specifications

|              |               |
|--------------|---------------|
| EAN          | 4007140095312 |
| Manufacturer | Ruko          |
| Weight (kg)  | 1,6000        |
