**RUKO HSS-Co 5 M 2 DIN 371
type B tap, high precision
ground.**

Brand: Ruko

Reference: TUR 232020E

Ruko-232020E Type B Machine Tap. Made of HSS-Co 5 high-speed steel, ideal for through threads in steels and non-ferrous metals. Bright finish, right-hand cutting edge. Packaged in an individual plastic box. M2 thread.

[View product online](#)**Description**

The Ruko-232020E tap is a high-precision machine tool ideal for creating through threads in a variety of materials. Made from high-strength, cobalt-alloyed high-speed steel, this tap offers exceptional durability and heat resistance, resulting in a long service life. Its reinforced shank design ensures greater stability during the tapping process, allowing for a high-quality finish every time.

This tap is suitable for working with unalloyed and alloy steels with a tensile strength of up to 800 N/mm², as well as malleable cast iron and non-ferrous metals.

The thread is cut in a single step, optimizing working time and improving production efficiency.

- **Model:** Ruko-232020E
- **Type:** Machine tap
- **Material:** HSS-Co 5 high-speed steel
- **Thread:** Metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Cut:** Right-hand
- **Surface:** Bright
- **Shank:** Reinforced
- **Applications:** Non-alloy steel, alloy steel, malleable cast iron, non-ferrous metals
- **Packaging:** Individual plastic case with hanger

Specifications

High	0,60
Width	1,20
EAN	4007140058874
Manufacturer	Ruko
Weight (kg)	0,0100
Depth	8,40
