

Product sheet

**RUKO HSS-Co 5 MF4 x 0.5 mm
DIN 374 type C threading tap,
ground.**

Brand: Ruko

Reference: TUR 261041E

Ruko-261041E machine tap, made of HSS-Co 5 high-speed steel. Designed for through threads in steels and non-ferrous metals. Fine metric thread MF4 x 0.5 mm, with ISO 2/6H tolerance. Packaged in a plastic case.

[View product online](#)**Description**

The Ruko-261041E tap is a high-precision tool designed for threading a variety of materials. Made of cobalt alloy high-speed steel, this tap offers superior heat resistance, ensuring a long service life and optimal performance under demanding conditions. Its reinforced shank provides greater stability during the threading process, allowing for precise, high-quality results.

This tap is ideal for creating through threads in unalloyed and alloy steels with a tensile strength of up to 900 N/mm², as well as in malleable cast iron and non-ferrous metals.

The thread is cut in a single step, simplifying the machining process and improving work efficiency.

- **Model:** Ruko-261041E
- **Type:** Machine tap
- **Material:** HSS-Co 5 high-speed steel
- **Thread:** Fine metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Dimensions:** MF4 x 0.5 mm
- **Cut:** Right-hand
- **Surface:** Bright
- **Packaging:** Individual plastic box with hanger
- **Applications:** Steel, malleable cast iron, and non-hard metals ferrous

Specifications

High	1,00
Width	3,00
EAN	4007140095886
Manufacturer	Ruko
Weight (kg)	0,0100
Depth	9,50
