RUKO HSS-Co 5 ground type C tap, G 1/4-Rp 1/4 thread.

Brand: Ruko

Reference: TUR 263014E

Ruko-263014E Type C Machine Tap. Made of HSS-Co 5 high-speed steel, ideal for G 1/4-Rp 1/4 threads in blind holes. High heat resistance and bright finish. Includes individual plastic case with hanger.

Description

The Ruko-263014E tap is a high-precision tool designed for creating threads in blind holes. Made of cobalt alloy high-speed steel, this tap offers superior heat resistance, ensuring a long service life even under demanding working conditions. Its reinforced shank and 35° spiral flutes allow for efficient and precise cutting, ideal for applications in unalloyed and alloyed steels with a tensile strength of up to 900 N/mm², as well as malleable cast iron and non-ferrous metals.

This tap is used for creating BSP threads according to DIN ISO 228, with a tolerance of ISO 2/6H. Its right-hand cutting design and bright surface ensure a high-quality finish every time.

Presented in a practical individual plastic case with a hanger, it is an essential tool for professionals seeking reliability and durability in their machining work.

- **Model:** Ruko-263014E
- **Type:** Machine tap
- **Material:** HSS-Co 5 high-speed steel
- **Thread:** G 1/4-Rp 1/4 (BSP, DIN ISO 228)
- **Tolerance:** ISO 2/6H
- **Shank:** Reinforced
- **Flutes:** 35° spirals
- **Strength:** Up to 900 N/mm²
- **Cutting:** right
- **Presentation:** Individual plastic box with hanger

Specifications

EAN	4007140097095
Manufacturer	Ruko
Weight (kg)	0,0400
