### Description

The Ruko-272060 tap is a high-precision tool designed for machining threads in soft materials. Manufactured with a reinforced shank, this tap is ideal for machine use, ensuring optimal performance and a long service life. Its design allows for the creation of through threads in a variety of materials, including aluminum, aluminum alloys, bronze, copper, nickel, and plastics. The thread is cut in a single step, which facilitates its use and improves efficiency in the machining process.

- **Model:** Ruko-272060
- **Type:** Machine tap M DIN 371
- **Material:** HSS (High-Speed Steel) ground
- **Thread:** Metric DIN ISO 13, M 6
- **Tolerance:** ISO 2/6H
- **Surface:** Bright
- **Cut:** Right-handed
- **Use:** For through threads in soft materials
- **Packaging:** Individual plastic box with hanger
- **Steps of Threading:** 1 step

This tap is an essential tool for professionals seeking precision and durability in their machining projects.

### Specifications

|              |               |
|--------------|---------------|
| High         | 1,00          |
| Width        | 3,00          |
| EAN          | 4007140128867 |
| Manufacturer | Ruko          |

|             |        |
