Description

The Ruko-272080 tap is a high-precision tool designed for creating through threads in a variety of soft materials. Manufactured with a reinforced shank, this tap is ideal for machine use, ensuring optimal and long-lasting performance. Its design allows for single-step thread tapping, simplifying the machining process and ensuring consistent, high-quality results. This tap is especially suitable for working with aluminum, aluminum alloys, bronze, copper, nickel, and plastics, making it a versatile tool for various industrial and DIY applications.

Presentation: Individual plastic box with hanger

Applications: Aluminum, aluminum alloys, bronze, copper, nickel, and plastics

Threading pitches: 1 pitch

Specifications

Height	1,50
Width	5,00
CAN	4007140128874
Manufacturer	Ruko
Weight (kg)	0,0300
Depth	12,00
