Description

The Ruko-243030 is a long tap specifically designed for creating through threads in unalloyed and low-alloy steels, with a maximum tensile strength of up to 800 N/mm². This product is characterized by its long handle, which facilitates a better grip and control during the tapping process. The thread is tapped in a single step, optimizing working time and improving efficiency in industrial and maintenance applications.

- **Thread:** Metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Surface:** Bright
- **Cut:** Right-hand
- **Material:** HSS (High-Speed Steel) Ground
- **Use:** For through threads
- **Maximum strength:** 800 N/mm²
- **Presentation:** 1 piece per unit
- **Packaging:** Individual plastic box with hanger
- **Applications:** Ideal for steelworking and industrial maintenance

This long tap is an essential tool for professionals who require precision and durability in their threading projects.

Specifications

High	1,00
Width	3,00
EAN	4007140026033

Manufacturer	Ruko
Weight (kg)	0,0100
Depth	9,50
