Description

The Ruko-243040 is a long tap specifically designed for creating through threads in unalloyed and low-alloy steels, with a maximum tensile strength of 800 N/mm². This product features a long shank, which allows for a better grip and control during the tapping process. The thread is cut in a single step, optimizing efficiency and precision. Its design complies with DIN ISO 13 metric thread standards, guaranteeing high quality and reliability in its use.

- **Material:** Ground HSS
- **Thread Type:** Metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Surface Finish:** Bright
- **Cut:** Right-handed
- **Maximum Tensile Strength:** 800 N/mm²
- **Use:** Unalloyed and Low-Alloy Steel
- **Presentation:** 1 piece
- **Packaging:** Individual plastic box with hanger
- **Shank Length:** Long

This tap is a An essential tool for professionals seeking precision and durability in their machining projects.

Specifications

High	1,00
Width	3,00
EAN	4007140026040

Manufacturer	Ruko
Weight (kg)	0,0100
Depth	12,00
