Description

The Ruko-243050 is a long tap specifically designed for creating through threads in unalloyed and low-alloy steels, with a maximum tensile strength of up to 800 N/mm². This product features a long shank, which provides a better grip and control during the tapping process. The thread is cut in a single step, making it easy to use and improving work efficiency. Its design complies with DIN ISO 13 metric thread standards, ensuring high precision and quality in every application.

- **Material:** HSS (High-Speed Steel) Ground
- **Thread:** Metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Surface:** Bright
- **Cut:** Right-hand
- **Use:** For unalloyed and low-alloy steels
- **Maximum strength:** 800 N/mm²
- **Presentation:** 1 piece per unit
- **Packaging:** Individual plastic box with hanger
- **Applications:** Ideal for threading work in workshops and DIY projects

Specifications

High	1,00
Width	3,00
EAN	4007140026057
Manufacturer	Ruko
Weight (kg)	0,0100
Depth	15,00
