RUKO HSS ground long tap for DIN 357 M8 threads - high precision and durability.

Brand: Ruko

Reference: TUR 243080

Ruko-243080 long tap for DIN 357 nut threads, made of ground HSS. Ideal for unalloyed and low-alloy steels. M8 thread, right-hand cut, with ISO 2/6H tolerance. Packaged in a plastic case.

Description

The Ruko-243080 is a long tap specifically designed for creating through threads in unalloyed and low-alloy steels, with a maximum tensile strength of up to 800 N/mm². This product is characterized by its long shank, which facilitates handling and application in various working situations. The thread is cut in a single step, optimizing the tapping process and ensuring precise and efficient results. Its design complies with DIN ISO 13 metric thread standards, guaranteeing high quality and reliability in use.

- **Thread type:** Metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Surface:** Bright
- **Cut:** Right-handed
- **Material:** Ground HSS (High-Speed Steel)
- **Maximum strength:** 800 N/mm²
- **Handle:** Long for greater comfort
- **Presentation:** 1 piece per unit
- **Packaging:** Individual plastic box with hanger
- **Applications:** Ideal for threading work in metals

Specifications

High	1,50
Width	5,00
EAN	4007140026071
Manufacturer	Ruko
Weight (kg)	0,0300
Depth	15,00
