Description

The Ruko-243120 is a long tap specifically designed for creating through threads in unalloyed and low-alloy steels, with a maximum tensile strength of 800 N/mm². This product is distinguished by its long shank, which facilitates handling and application in confined spaces. The thread is cut in a single step, optimizing the tapping process and ensuring precise and efficient results. Its design complies with DIN ISO 13 metric thread standards, ensuring high quality and reliability in use.

- **Material:** HSS (High-Speed Steel) Ground
- **Thread:** Metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Surface:** Bright
- **Cut:** Right-handed
- **Use:** For unalloyed and low-alloy steels
- **Maximum strength:** 800 N/mm²
- **Thread type:** Through
- **Packaging:** 1 piece in individual plastic box with hanger
- **Handle length:** Long

This tap is an essential tool for professionals who require precision and durability in their threading work.

Specifications

High	1,50
Width	5,00
EAN	4007140026095

Manufacturer	Ruko
Weight (kg)	0,0900
Depth	18,00
