Description

The Ruko-243140 is a long tap specifically designed for creating through threads in unalloyed and low-alloy steels, with a maximum tensile strength of up to 800 N/mm². This product is distinguished by its long shank, which facilitates handling and application in various machining tasks. The thread is tapped in a single step, optimizing the cutting process and ensuring precise and efficient results. Its design complies with DIN ISO 13 metric thread standards, guaranteeing high quality and reliability in use.

- **Material:** HSS (High-Speed Steel) ground
- **Thread:** Metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Surface:** Bright
- **Cut:** Right-handed
- **Application:** For unalloyed and low-alloy steels
- **Maximum strength:** 800 N/mm²
- **Thread type:** Through
- **Packaging:** 1 piece in individual plastic box with hanger
- **Handle length:** Long

This tap is an essential tool for professionals seeking precision and durability in their threading work.

Specifications

High	2,50
Width	7,00
EAN	4007140096067
Manufacturer	Ruko

Weight (kg)	0,0600
Depth	18,00
