Description

The Ruko-243160 is a long tap specifically designed for creating through threads in unalloyed and low-alloy steels, with a maximum tensile strength of up to 800 N/mm². This product features a long shank, which facilitates more comfortable and efficient handling during the tapping process. The thread is cut in a single step, optimizing working time and ensuring precise results. Its design complies with DIN ISO 13 metric thread standards, guaranteeing high quality and reliability in its use.

- **Thread type:** Metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Surface:** Bright
- **Cut:** Right-hand
- **Material:** HSS (High-Speed Steel) Ground
- **Maximum strength:** 800 N/mm²
- **Use:** Unalloyed steel and low-alloy steel
- **Presentation:** 1 piece per unit
- **Packaging:** Individual plastic box with hanger
- **Application:** Ideal for threading work in industrial environments

Specifications

High	2,50
Width	7,00
EAN	4007140096074
Manufacturer	Ruko
Weight (kg)	0,0600
Depth	18,00
