RUKO HSSE-Co 5 nitrided thread profiler M3, DIN 2174, type D, VAP ground

Brand: Ruko

Reference: TUR 271003N

The Ruko-271003N Type D thread profiler is ideal for alloy and non-alloy steels up to 700 N/Nm². Its design prevents chip formation and ensures accuracy in long production runs. It features a nitrided surface and comes in an individual plastic case.

Description

The Ruko-271003N thread profiler is a high-precision tool designed for creating threads in alloy and non-alloy steels, as well as non-ferrous metals, with a tensile strength of up to 700 N/m². This profiler stands out for its ability to generate threads without cutting, minimizing chip formation and ensuring a cleaner and more efficient work process. Its design allows for consistent precision, even in long production runs, making it an ideal choice for demanding industrial applications.

- **Thread:** metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Surface:** nitrided
- **Cutting:** right-handed
- **Material:** HSSE-Co 5
- **Applications:** alloy and non-alloy steels, non-ferrous metals
- **Maximum strength:** up to 700 N/nm²
- **Production:** suitable for long runs
- **Packaging:** individual plastic box with hanger

The The Ruko-271003N is an essential tool for professionals seeking quality and efficiency in thread machining.

Specifications

High	1,00
Width	3,00
EAN	4007140128966
Manufacturer	Ruko

Weight (kg)	0,0100
Depth	9,50
