Description

The Ruko-270017 is a combination HSS tap designed for machine tools, allowing multiple operations to be performed with a single tool. This product is ideal for users who require efficiency and precision when working with materials such as unalloyed steels, alloy steels up to a tensile strength of 600 N/mm², malleable cast iron, and non-ferrous metals. Its innovative design facilitates drilling, tapping, cleaning, and countersinking, thus optimizing time and resources in the machining process.

- **Thread:** Metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Surface Finish:** Bright
- **Cut:** Right-hand
- **Head:** Hex 1/4"
- **Compatibility:** Compatible with magnetic bit holders (see WITTE 26006)
- **Material:** HSS (High-Speed Steel)
- **Use:** For unalloyed and alloyed steels, malleable cast iron, and non-ferrous metals
- **Presentation:** Individual plastic box with hanger
- **Applications:** Ideal for machining work in workshops and factories

The Ruko-270017 is a versatile tool that combines quality and functionality, making it an indispensable ally for professionals in the sector.

Specifications

High	1,00
Width	1,00
EAN	4007140108319

Manufacturer	Ruko
Weight (kg)	0,0100
Depth	10,80
