Description

The Ruko-270018 is a combination HSS tap designed for machine tools, allowing multiple operations to be performed with a single tool. This product is ideal for users who require efficiency and precision when working with materials such as unalloyed steels, alloy steels up to a tensile strength of 600 N/mm², malleable cast iron, and non-ferrous metals. Its innovative design facilitates drilling, tapping, cleaning, and countersinking, thus optimizing time and resources in the machining process.

- **Thread:** Metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Surface Finish:** Bright
- **Cut:** Right-hand
- **Head:** 1/4" Hex
- **Compatibility:** Compatible with magnetic bit holders (see WITTE 26006)
- **Material:** HSS (High-Speed Steel)
- **Use:** For unalloyed and alloyed steels, malleable cast iron, and non-ferrous metals
- **Presentation:** Individual plastic box with hanger
- **Applications:** Ideal for threading and machining work in workshops and factories

The Ruko-270018 is a versatile and robust tool, designed to meet the demands of professionals in the machining sector.

Specifications

High	1,50
Width	1,50
EAN	4007140108326

Manufacturer	Ruko
Weight (kg)	0,0100
Depth	9,50
