Description

The Ruko-241100 Adjustable Tap Wrench DIN 1814 Size 0 is a tool specifically designed to facilitate tapping in hard-to-reach places. Its robust construction and advanced functionality make it an indispensable tool for professionals and DIY enthusiasts. This tap wrench features steel handles, one of which is detachable, allowing for greater versatility and comfort during use. The two-jaw clamp is designed to efficiently secure square shanks, guaranteeing a firm and precise grip. Its cast iron body provides exceptional durability, while the hardened clamping jaws ensure optimal performance under various working conditions. Furthermore, the product comes in an individual plastic box with a hanger, facilitating its storage and transport.
