[View product online](#)**Description**

The Ruko-241112 Adjustable Tap Wrench, DIN 1814 size 1 1/2", is a tool specifically designed to facilitate tapping in hard-to-reach places. Its robust construction and advanced functionality make it an indispensable tool for professionals and DIY enthusiasts alike. This tap wrench features steel handles, one of which is detachable, allowing for greater versatility and ease of use. The two-jaw clamp is designed to efficiently secure square shanks, ensuring a firm and secure grip. Its cast body provides exceptional durability, while the hardened clamping jaws ensure optimal performance in a variety of applications. Furthermore, the product comes in an individual plastic box with a hanger, facilitating its storage and transport.
