Description

The Ruko-107004-Set C Unigrat deburring system is an essential tool for efficient and precise hand deburring. This system is designed to offer a streamlined solution to deburring needs, enabling a professional finish in a wide variety of applications. With a versatile selection of blades, the set provides multiple options for deburring holes and edges, adapting to different contours and geometries. The blades are designed to work on holes from the inside, outside, or both sides, guaranteeing optimal results every time.

- **Includes:** 3 interchangeable blades for different applications.
- **Versatility:** Suitable for deburring holes and edges on various surfaces.
- **Adaptability:** Blades that adjust to the contours of the workpiece.
- **Handheld:** Designed for comfortable and controlled handling.
- **High-quality materials:** Blades manufactured for long durability.
- **Easy maintenance:** The blades are easily interchangeable and cleanable.
- **Precision:** Allows for uniform and effortless deburring.
- **Lightweight and portable:** Ideal for workshop or in the workplace.
- **Compatibility:** Works with a variety of materials, including metal and plastic.
- **Ergonomic design:** Facilitates prolonged use without fatigue.
