

Product sheet

**RUKO Unigrat 3-piece deburring system with high precision and durability.**

Brand: Ruko

Reference: TUR 107007

The Ruko-107007 deburring set, consisting of 3 pieces, is ideal for manual deburring. It includes various blades that adapt to holes and edges, allowing for precise and versatile work on different contours, both indoors and outdoors.

[View product online](#)**Description**

The Ruko-107007-Set F Unigrat deburring system is an essential tool for efficient and precise manual deburring. This system is designed to offer a streamlined solution that adapts to various deburring needs, thanks to its wide selection of blades. Each blade has been crafted to provide optimal performance, allowing for easy deburring of holes and edges. Its versatile design allows you to work both inside and outside holes, as well as on both sides, adapting to the contours of the surface being treated.

- **3-Piece Set:** Includes different blades for various applications.
- **Versatility:** Allows deburring holes from the inside, outside, or both sides.
- **Adaptability:** The blades adjust to the contours of the surface.
- **Ergonomic Design:** Facilitates handling and comfort during use.
- **High-Quality Material:** Ensures durability and wear resistance.
- **Easy to Use:** Ideal for professionals and DIY enthusiasts.
- **Wide Range of Applications:** Suitable for metal, plastic, and other materials.
- **Compact and Lightweight:** Facilitates transport and storage.
- **Easy maintenance:** The blades are easy to clean and replace.
- **Compatible with other systems:** It can be integrated with existing deburring tools.
